Education

CERTIFIED PROFESSIONAL SOFTWARE ARCHITECT (FOUNDATION LEVEL)

2015

Hamburg, Germany

Topics included: foundations of software architectures, components/building blocks, interfaces, architectural goals, quality goals and tools.

DOCTOR OF PHILOSOPHY IN COMPUTING

2006 - 2010

The Robert Gordon University, Aberdeen, Scotland

Thesis title: Hybrid Algorithms for Distributed Constraint Satisfaction. In my doctoral research, I investigated and developed hybrid algorithms for Distributed Constraint Satisfaction, combining the convergence abilities of local search with the completeness of backtracking. This has led to the development of new algorithms for Distributed Constraint Satisfaction including PenDHyb, Multi-Hyb and Multi-HDCS.

BACHELOR OF SCIENCE WITH 1ST CLASS HONOURS IN COMPUTING FOR BUSINESS AND E-COMMERCE

2002 - 2006

The Robert Gordon University, Aberdeen, Scotland

This degree combined a standard Computing Science degree with several business modules such as Marketing, Accounting and Change Management particularly focused on an E-Commerce context.
